

# GUIDE FOR ABSTRACTS

## ABSTRACT SUBMISSION

Submission of **short abstracts** (for the Book of Abstracts of the conference) - is a part of the on-line registration for the conference. **Deadline** for abstract submission is the same as for registration, i.e. **20 April 2010**.

Abstracts are limited by 2000 characters including spaces.

For the abstract, use the basic **Courier** font, size 10, style **regular** with no editing (tabulators, indent, spacing, etc.). Do not include any tables, charts or pictures. The field in the on-line registration, where you will place your abstract is set in a basic code which does not allow any of these features, in other words, they will be disregarded (so save yourself the work).

**Manuscripts** for special issue of Fisheries Research will be collected from authors at the conference registration. Deadline for submission is **9 September 2010**.

To prepare the manuscript, please use the Instruction for Authors of Fisheries Research journal (with exception of the on-line submission):

[http://www.elsevier.com/wps/find/journaldescription.cws\\_home/503309/authorinstructions](http://www.elsevier.com/wps/find/journaldescription.cws_home/503309/authorinstructions).

All manuscripts will undergo a usual peer-review process, and successfully reviewed manuscripts will be published.

More info will come soon. We will inform you of any potential changes.

Organisers.
